MAPLE DUNKS

BLACK MAPLE X GARY PAYTON

LIVE ROSIN
BADDER

Campaign Overview

From March 17th to April 8th, Maple Dunks Rosin Badder (Black Maple x Gary Payton) is 25% off—a slam dunk deal for customers looking for smooth, potent solventless rosin. Let them know this limited-time drop delivers bold flavor with a well-balanced high. Stock up and spread the word before the final buzzer! Please display campaign signage near POS stations, waiting areas, or high-traffic spots to grab customer attention.

Product Highlights

Solventless & Strain-Specific

Our Live Rosin Badder is crafted without the use of any chemical solvents—just pure ice, water, heat, and pressure. This solventless process preserves the full-spectrum cannabinoids and terpenes of each strain, delivering a clean, true-to-plant experience.

Live-Pressed, Cold-Cured

We press fresh-frozen cannabis to extract live rosin, preserving the delicate terpenes and natural essence of the plant at its peak. This method results in a rich, flavorful badder that's easy to handle and delivers a potent, well-rounded high.

Small-Batch, Ultra-Pure

We produce our Live Rosin Badder in small batches to maintain quality and consistency. This hands-on approach ensures that every jar meets the highest standards, with no fillers, additives, or unwanted plant material—just pure, high-quality cannabis extract.

About the Strain

Black Maple x Gary Payton

Destress with Maple Dunks, a soothing indica bred from Black Maple and Gary Payton. With piney notes, a gassy finish, and a pleasant tree sap-like flavor throughout, this strain delivers quick relief and deep relaxation. Perfect for easing sore muscles after a workout or a day on the slopes, it strikes a balance between unwinding and staying social. Whether it's game night with friends, a cozy movie marathon, or curling up with a good book, Maple Dunks is your go-to for laid-back evenings.
