

RAINBOW SHERBERT #11

Infused PreRoll Series - Budtender Notes

What to Know - Product Highlights:

3-pack of 0.8g prerolls (2.4g total)

Made with premium whole-bud Rainbow Sherbert #11 flower (no shake or trim) and solventless bubble hash.

Ultra-thin rice paper for a smooth, flavor-forward experience.

Flower-to-Hash Ratio: 2:1 ratio means that for every 2 parts of premium flower, there's 1 part hash in the blend. This ratio offers a balanced combination where the flower provides full-spectrum flavor and a smooth burn, while the hash adds potency and enhances the overall effects

Combos + Effects

Indica

Rainbow Sherbert + Dante's Inferno (Leans Indica, 38% THC | 2.9% terpenes): There's a strong berry flavor and a gassy finish thanks to Dante's Inferno, while the effects were described as deeply relaxing and perfect for sleep. This is the ultimate nighttime strain for those looking to fully melt into their couch or bed.

Rainbow Sherbert + Fritter Banger (Leans Indica, 43% THC | 5.9% terpenes): This one packs a serious punch—so strong that one tester said it made their “nose tingle.” Expect a strong body high and an overall chill mood. It's probably best not to make any big plans if you're smoking this combo.

Rainbow Sherbert + Black Maple (Leans Sativa, 35% THC | 4.3% terpenes): Black Maple hash brought a versatile and well-balanced experience. It's mellow but leans slightly toward an uplifting, social high. Testers enjoyed its spicy, clover-like earthiness and called it a “great smoke at any time of day.”

Sativa

Rainbow Sherbert + Mai Tai (Leans Sativa, 35% THC | 4.1% terpenes): Mai Tai boasts a smooth smoke that's sweet with some minty undertones. Expect a fun, balanced high that's uplifting and relaxing at the same time. Prepare for a social and happy buzz that's great for lighthearted activities.

Rainbow Sherbert + Mandarin Sunset (Leans Sativa, 35% THC | 3.9% terpenes): Testers raved about the way Mandarin Sunset hash added unique flavor to the RS11 flower. This combo “hits hard, lasts longer than expected,” and brings out unique tropical notes with a floral undertone.

Help us spread the word!

POP Signage: Display campaign signage near POS stations, waiting areas, or high-traffic spots to grab customer attention.

Staff Picks: Highlight your favorite combo to customers and share personal feedback to help guide their choices.

Social Media Support: Tag @groovesolventless and showcase these prerolls on your dispensary's social channels to build buzz.
